## FAMILY HOUSE

*Keeping Families  
Together*

Since 1981, Family House has served as a home away from home for families of children with cancer and other life-threatening illnesses by providing physical comfort and emotional support, free from financial concerns.

## What We Do

In addition to housing, Family House provides a caring community of staff, volunteers, and donor partners who enable families to live in comfort and dignity during the most difficult time of their lives. All of our services are provided 100% free of cost, **thanks to generous donor support.**

**Volunteers** allow us to extend each dollar donated. Each year, 4,000+ volunteers contribute more than 11,000 service hours, allowing us to operate with a small staff.

## Family-Centered Care

- Families from all over the country and world seek out UCSF Benioff Children's Hospital for life-saving treatment and access to clinical trials
- By providing cost-free housing, Family House makes this treatment accessible to all by eliminating the financial barriers associated with travel and long stays away from home
- Family House is not funded by the hospital, though our partnership supports a mutual goal of providing family-centered care

*“When families have a child with an illness that requires extended medical care, they often have to move away from home, further increasing stress. Family House provides a safe, comfortable, and welcoming home away from home where the whole family can recover. Family House is essential for families in their time of greatest need.”*
